Is Your Musical Ear Keener than Zenatello's?

KNIGHTED by the King of Italy—acclaimed in the musical centers of the Old World and The New—one of the great tenors of all times—Zenatello has delighted thousands with his "voice of golden tone, prodigal in its expenditure, yet responsive to every emotional shade." Zenatello is the leading tenor of the Boston National Grand Opera Company.

In the above picture, this great artist is singing in direct comparison with

The NEW EDISON

Re-Creation of his voice. Over three hundred musical critics say that the New Edison Re-Creation of the voice is indistinguishable from the original.

Is your musical ear keener, truer than Zenatello's? Make the test. Hear the New Edison Re-Creation of Zenatello, Anna Case, Thomas Chalmers, Albert Spalding and other great artists.

We will gladly arrange a concert for you and your friends, so that you may hear these Re-Creations.

Tree Planting in Saskatchewan

Forestry Office Tells of Work Done

Parliament Is Doing in West

A considerable forest has been planted in all

about seven and a half million native

trees of various kinds, but the

distributed over Saskatchewan this

summer, Norman Ross, of the Forestry

Station, Indian Head, says that the

students of the University and the

Normal School, say the Saskatchewan

Star, of the work being done in the

province to beautify agricultural districts.

When the work was first started in

1901, the farmers looked askance at

the idea of setting out small

400,000 trees were sent out and that

with difficulty, last year 4,000,000

trees were distributed and the number

this year will be nearly double.

Of this two and a half million will

be supplied from the Sutherland nursery

at Saskatoon.

Valuable suggestions were given to

the students in home planning.

First of all in planning a country

it is important to find a central

located place. Mr. Ross favored a

place which was convenient to the

fields rather than to the public high

way leading to town. He argued that

a farmer has to make his own way to

his fields while he doesn't have to go

to town on a train.

The tendency is always to make the

building plot too small to begin with.

If trees are planted on a small plot

it is generally necessary to cut the

willow and caragana. The trees require

to enlarge the farm buildings.

For this reason it is well to plan to

have the building plot large enough to

ten acres in size. The buildings

could be arranged with a view

making them convenient. The matter

of water supply is important in

this province and should be con-

sidered.

In planning shelter belts, Mr. Ross

advocated that the belts be narrow

rather than wide. They must be at

least 30 yards from the buildings.

Where the belts are over eight or ten

feet in width they are over eight or

Boy Scout Notes

A King's Scout Must Pass Many Difficult Tests Before Winning Badge

Every boy who has become a

King's Scout has a right to feel

pride in being a member of the

of the world, a finished Scout.

Not that he has learned everything

there is to be learned about Scouting

but he is in a position to teach other

boys and if necessary of the qualities

of leadership to assume the role of

leader of a pack.

A King's Scout must first of all be

a First Class Scout, which honor

he earns by a general knowledge

of Scouting, for a First Class Scout

must pass many difficult tests before

winning his badge. Then too, the

Scout must be a high honor man

fully qualified to wear four of the

following proficiency badges, that

which the Pathfinder badge is com-

mandatory. Ambulance, Codes, Marks-

man, Pathfinder, Signaller, Fireman

and Rover.

The Proficiency Badge which the

King's Scout must be qualified to

wear are all public service badges.

It is the training that is necessary

before the badge can be worn, for

the public in general. A King's Scout

can make himself generally useful at

any time in the case of an accident

or drowning he can render first aid

and he has the knowledge he has

gained through the Pathfinder badge

to be a good scoutmaster.

He has a general knowledge of the

district in which he lives, so that he

can be of real service in the way of

directing strangers from one place to

another. It is an important

feature that the King's Scout must

submit to a re-examination annually.

The following are extracts from

letters from a Second Lieutenant in

the Canadian Scouts, who has been

in the Scouts for some time.

"Since starting my course in

Scouting, I have been very much

interested that a great help the Scout

work has been to me and in some

cases has been a very great

part of the hard work. A fellow

Scout has done him a great deal of

good in contact with fellows who are not

Scouts, and I have found that

Ships Biggest British Need

Call for Speeding up Mercantile Ship

Building, Becoming More Insistent

London press and public are

confident that the military situation

in the world is such that the

effect on the food supply. The

call for speed up the mercantile

shipbuilding is most insistent. It is

not only in the demand created by

the war for men and munitions, the

action of neutral ship holding ships

but in the subject of insurance

and discussion in the House of

Commons, there may be further

developments in this direction, most

important to Canada, if the Danes and

Hollanders are unable to ship their

daily products in their own ves-

sels or are unwilling to take any risk at

all.

In carrying on in London the

established business of provisioning

Britain, there is a disposition here to

turn more and more toward making

the Empire self-contained in this

direction, and in the case of

Canada profits at once by this, but

also by the fact that the

over-sea Dominions, and much less

shipping is needed to bring their

products to Britain than in the case of

other Dominions.

Ode To Tonsillitis

By Wallace Irwin of the Vigilantes.
Since tonsillitis Rules decree our
more,
Even while Franks threatens us with
slaying—
That one wild donkey still may hold the
floor
And block on entire nation with his
braying;
Yet, since the chin is mightier than the
sword,
The lung and larynx deadlier than
reason
And Robert spurns the flag beneath the
Ford
In one continuous bank of windy
troops;
Ah! then come forth, thou dread but
whisperer come!
Forth of the apoplexy throat, fair
Tonsillitis!

Go gulping to the Sage of Madison,
Who him with wrinkles of autism and
brouhaha!
Struggle beside his emotional seat,
Lure him with kisses, winks, and
reckless
Until the cold which now afflicts his
feet
Glides to the place where Katherine
wore the necklace.
Then must that rare trombone grow fog-
ged and cease,
That wails of words lie fallow in his
wake!
There'll be no more Atrocities of Peace
Committed there by Robert M. La
Follette.
Then will the eagle o'er the rostrum
strife,
While patriots clap hands in satis-
faction.
The gentleman from Wisconsin cannot
speak—
Rejoice, ye national Now we'll just
some action!"

In spite of the fact that right at our
very door is being produced the best do-
mestic coal in the province of Alberta,

Important Amendments To Game Regulations

Close Season For Prairie Chicken
Until October, 1918.

At the recent session of the Legisla-
ture the Game Act was amended, and new
provisions for a close season on antelope
until the first of October 1918.
It also provides that wild geese shall
receive the same protection as wild ducks,
the open season being from the first of
September, for both ducks and geese until
the 15th of December, with a bag limit
of 20 ducks per day or 200 for the season.

The clause relating to the killing of
White-winged Scoter, (commonly called
black duck) north of Township 26, has
been repealed. These birds will now re-
ceive the same protection as other species
of ducks.

The shooting of snipe and cranes is
now prohibited at all times.

All shore birds are now protected, there-
fore no open season therefor, except for
Black-bellied Plover, American Golden
Plover, Wilson Snipe, Greater Yellow
Legs and Yellow Lays, the open season
for these birds being the same as for
ducks and geese, i.e. from September 1st
to December 15th.

The shooting of prairie chickens, (chick-
adees, grouse, ptarmigan grouse), par-
tridges (Buffed grouse) is prohibited un-
til the first day of October 1918.

A travy law has been entered into by
the Dominion of Canada, and the United
States for the protection of migratory
birds. It provides that there shall be no
shooting of migratory game, song or re-
servation birds during the spring migra-
tion.

It specifically provides that
crows and cranes shall be protected all
seasons of the year, for at least ten years,
also that no shore bird, other than those
specified above shall be hunted or shot
at, at any time.

Wanted---A

Perfect Preacher

Learning that Dr. E. H. Gray was
about to resign the pastorate of Central
United Church, Blairmore, one of our
spring poets goes off the following:

"Our trustees have gone travelling;
They're on a mission here,
To pick us out a preacher—one with
whom we'll be content.
Help the man who is to save,
Be too low,
We'd like him very plastic, a man to
speak out of dough,
He mustn't be too short, and he mustn't
be too tall,
And he must not have opinions that
will hurt us with all.
He mustn't be too young, and he mustn't
be too old,
And he must be very humble and never
speak out loud,
He must please the rich and haughty and
the poor and humble too,
And he must always have a plan for
everything we do.
He must be very useful, and he must
speak things to say,
And when we disagree him he must look
the other way!
Our trustees seem to think that they can
find the very man,
But you see now, I'm doubtful if they
ever really can."

The New Recruit

Tune—"John Brown's Body"
John Bull's army's got another new
recruit.
Another patient suffering one that Kul-
ter doesn't suit,
His pants are stretched and oh, his span-
gled top is a beast.
And there's room for just one more.
Glory, Sun, but you're a winner,
Oh, you're wise, you can't deny,
Just joined him in time for dinner,
But there's room for just one more.
Say, but how you liked us when you
said you wouldn't camp,
There was time, we took the heading
you a land, recommending ship,
But we're glad to have you with us for
reasons of the map.
For there's room for just one more,
England, Scotland, Ireland, France and
Wales and Italy,
Canada, Australia, South Africa you'll
do, we
Russia, Belgium, Servia—other Legions
of the Free,
And there's room for just one more.
Here's a welcome to you, Sammy, here's
a rifle for you too,
You've lost some time in drilling, but we
know your heart was true,
You'll find the same old boys—
they'll sure make room for you,

An elderly lady returned to the
Pass on Wednesday morning from
England, having had the expe-
rience of being a passenger on a
ship that was torpedoed and sunk
in the English Channel by a Hun
submarine. She was one of the
few survivors landed in England,
and had the courage to at-
tempt the perilous journey across
the pond.

THE FARM

She must have Food—

for her Armies in the Field—for her Workers in the Factory—in the Munition plant—in the Shipyard—in the Mine.

THERE'S DANGER IN SIGHT—BUT YOU CAN HELP

DO YOU KNOW—

that the rapidly rising price of food stuffs means that the World's reserve supply is getting small?

DO YOU KNOW—

that a world-wide famine can only be averted by increasing this supply?

DO YOU KNOW—

that a "food famine" would be a worse disaster to the Empire and her Allies than reverses in the Field?

YOU CAN—

help thwart Germany's desperate submarine thrust on the high seas.

YOU CAN—

do this by helping to make every bit of land in Canada produce—the very last pound of food stuffs of which it is capable.

AND REMEMBER

that no man can say that he has fully done his part—who having land—be it garden patch, or farm, or ranch—fails to make it produce food to its utmost capacity.
